The Pontiac Journal - A Performance Years Newsletter

Volume 1 - Issue 4

Welcome to the Spring 2003 Edition of our Pontiac Journal. There are a number of new products we have been working on all winter and are now finally available.

Attention!

We have been performing some spring cleaning in our warehouse in an attempt to make room for all of the new products we now have available. While cleaning, we have uncovered dozens of NOS parts and decided to do an EBAY BLOWOUT. [Click HERE to see our current auctions on Ebay.](#)

New Products - GTO, Tempest & LeMans

1966-68 4-Speed Walnut Knob

Finally available! This new repro far exceeds our expectations. The walnut is exceptionally finished and the lucite graphics are extremely detailed.

PY Forums Spring Contest!! Internet Scavenger Hunt.

It is nearing time for our annual PY Forums Spring Contest. Just like last year, the Grand Prize is an all expense paid trip to this year's POCI Nationals. This year the POCI Nationals are in Saint Louis, MO on July 8-12.

This year our contest takes the form of an Internet Scavenger Hunt. Contestants will be given clues to find keywords. Once you have found all of the keywords by searching the internet, you submit your answers and correct entries are entered into the drawing for the Grand Prize. You must be a registered member of PY Forums to participate. No Purchase Necessary!!

Keep an eye on the [PY Forums Lobby](#). The contest will be starting soon.

Featured New Products

This is the correct looking oval master cylinder for the special dual piston caliper brakes. This unit was reproduced for the Corvette hobby so as of this time, we have not confirmed how exact these units are for Pontiac applications. The only difference seems to be the brake line inlet positioning.

[Sample Exhaust System Sounds](#)

We are very proud to present our new High Performance Mandrel Bent Exhaust Systems. Our systems combine the best components for track tested performance. Each system includes; 2 PY Mandrel Bent Tailpipes, 2 PY Downpipes, a PY X-Pipe Kit and 2 High Flow Mufflers. Our Turbo Mufflers are Big Max by Goerlich. Our Race Mufflers are Xlerator by Goerlich (Dynamax Mufflers may be substituted at an extra charge, Please Call).

Headers are NOT included in these systems. We have purposely not listed 3" systems with the use of factory exhaust manifolds. It can be done but performance gain can be questionable. We recommend headers for all 3" exhaust systems. Please call to discuss your requirements.
